---

Education

Bachelor of Science in Data Science   May 2022
Data University, Data City, DC
GPA: 3.85/4.0

Professional Experience

Data Analyst   July 2022 – Present
TechInsights, Data City, DC

- Conducted **data analysis** using **Python**, **SQL**, and **Pandas** to process large datasets, identifying trends that improved business efficiency by 20%.

- Developed **machine learning** models to predict customer churn, increasing retention rates by 15% through actionable insights.

- Demonstrated strong **communication** skills by presenting complex data findings to non-technical stakeholders, enhancing decision-making processes.

- Collaborated in **teamwork**-driven projects with cross-functional teams to design data pipelines, reducing processing time by 25%.

Junior Data Analyst   June 2020 – June 2022
GrowAnalytics, Data City, DC

- Utilized **Python** and **SQL** for **data analysis**, cleaning and transforming datasets to support business intelligence initiatives.

- Applied **Pandas** for data manipulation, streamlining reporting processes and reducing report generation time by 30%.

- Contributed to **machine learning** projects, assisting in model training and validation, improving prediction accuracy by 10%.

- Fostered **teamwork** by coordinating with analysts and engineers to ensure data integrity across systems.

Skills

- **Technical Skills**: **Python**, **SQL**, **Pandas**, **Machine Learning**, **Data Analysis**

- **Soft Skills**: **Communication**, **Teamwork**

- **Other**: Tableau, Excel, Data Visualization, Statistical Analysis

Certifications

- Certified Data Analyst (DataCamp), 2021

- Machine Learning with Python (Coursera), 2020
